Re: Electrical Services

To whom it may concern,

Connection Electrical and Data have been working with Mould Developments Pty Ltd for over 2 years and have been involved in numerous high quality residential and commercial builds.

Because of the size and scope of our projects we undertake we need an electrical company who can offer a complete electrical and data service. Connection Electrical and Data are extremely reliable, there is no job to big or complex, they skilfully project manage all of the jobs we have provided them and are attentive to every detail. Connection Electrical and Data has our highest recommendation, we wouldn't trust anyone else. This high level standard they bring to us as a builder is why we continue to engage their services

Kind regards,

A handwritten signature in black ink, appearing to read 'Todd Mould', is positioned below the text 'Kind regards,'.
