Dear whom it may concern,

I have worked with Tom for a number of years now.

His company Connection Electrical and Data offer a wide range of services and make the process a breeze from start to finish.

Tom has always shown a great deal of knowledge and experience in the industry; furthermore he is punctual and conducts himself in a very professional manner.

I would have no hesitation in recommending Connection Electrical and Data to fellow Builders, Developers, Tradies, Suppliers or Customers.

Thanks and Kind Regards,
